➤ Snap Quote (MBP)

Market by Price

Users can invoke the Market Depth window directly from the Market Watch. This feature provides real-time updates on:

- Best buy and sell prices
- Quantity of orders
- Last Traded Price (LTP)
- Last Traded Quantity (LTQ)
- Upper and lower circuit limits
- Daily high and low prices
- 52-week high and low prices

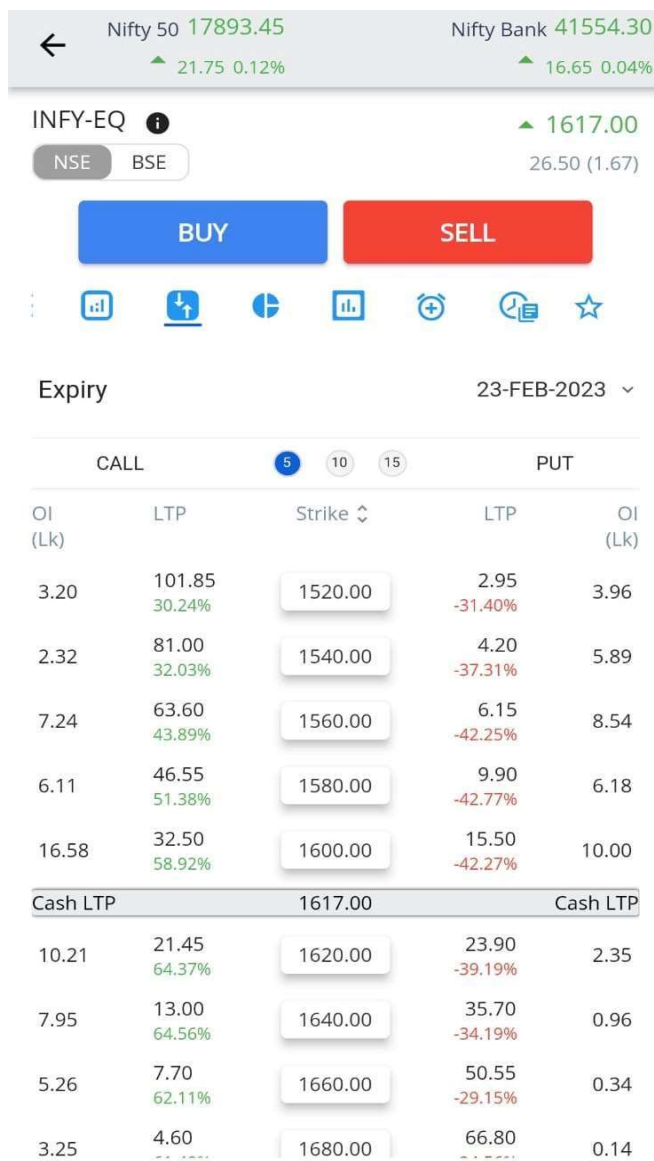

This comprehensive view enables users to make informed trading decisions.

➤ Option Chain

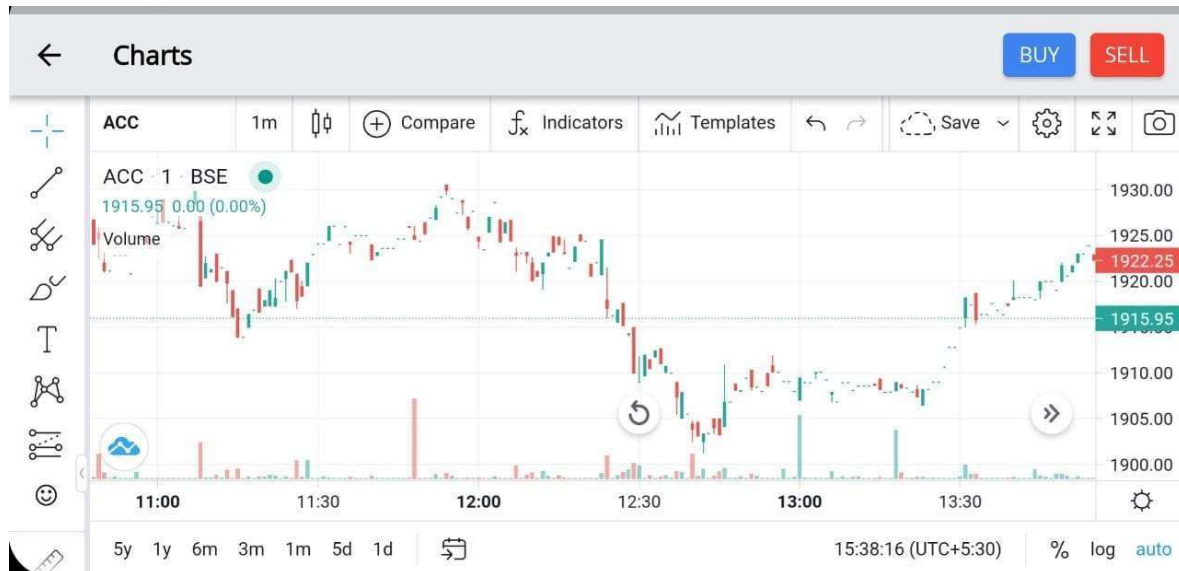

Option chains are comprehensive lists of available options contracts for a specific security. They serve various purposes, including:

- Analyzing potential trading strategies
- Evaluating risk and reward scenarios
- Monitoring market sentiment
- Making informed decisions on options trading

➤ Charts

The application features an advanced charting tool that includes comprehensive technical analysis capabilities. Users can access various popular indicators, enabling them to analyse market trends and make informed trading decisions.

➤ Fundamentals:

Fundamentals are the backbone of investment decisions. Integrating them in trading apps empowers users, builds trust, and opens the door to advanced tools and features.

Users can place a sell order for a selected instrument or contract directly from the Market Depth window, as well as from the Holdings or Positions window.

15 | Page

Supported Order Types

Users can place various types of orders, including:

- **LMT (Limit Order):** A limit order at a specified price.
- **MKT (Market Order):** An order to buy or sell at the current market price.
- **SL-LMT (Stop Loss Order with Limit Price):** A stop loss order where the user specifies a trigger price and limit price.
- **SL-MKT (Stop Loss Order with Market Price):** A stop loss order where the user specifies a trigger price; the order will execute at the market price when triggered. **Note:** Quantity must be a multiple of the lot size.

Order Retention Types

- **Immediate or Cancel (IOC):** The order will execute immediately, and any unfilled portion will be canceled.
- **Good-for-Day (Day):** The order remains active until the end of the trading day unless filled or canceled by the user.

Modify/Cancel Order Request

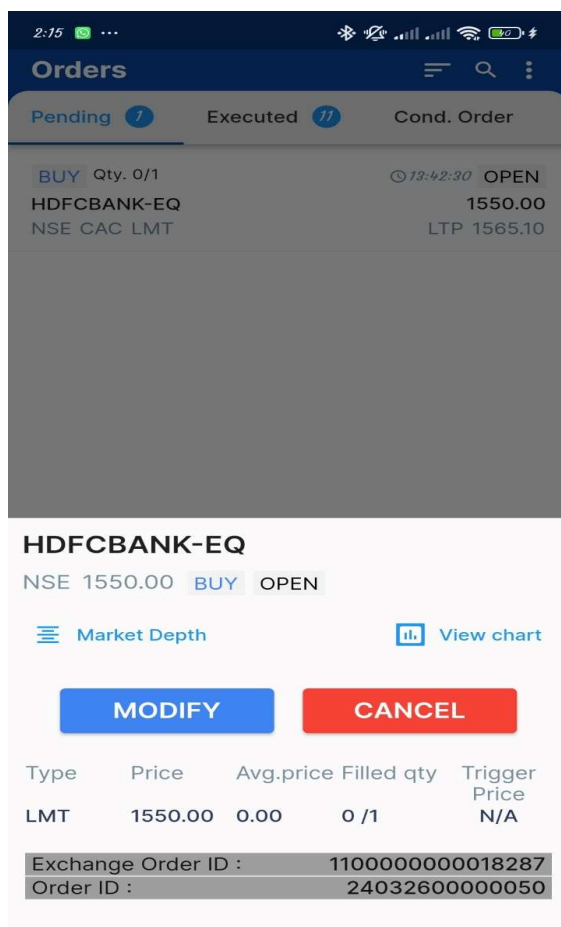

Modify Order Request

The Modify Order Request window allows users to modify the following details of an existing order:

- **Quantity (Qty)**
- **Price**
- **Disclosed Quantity**
- **Order Type**
- **Duration**

Order Cancellation

Users can select an order and click the **Cancel** or **Delete** button. A confirmation pop-up will appear to verify the cancellation.

AMO Orders

Any order placed by selecting the **AMO** option will be submitted as an After Market Order, allowing users to place trades outside of regular market hours.

regular market hours.

Special Orders

A Cover Order is an order placed alongside a compulsory Stop Loss Order. In this type of order, the buy or sell order can be either a Limit or Market Order, and it must be accompanied by a Stop Loss Order within a specified range.

Additionally, a Trailing Stop Loss can be enabled for Cover Orders, providing users with further flexibility in managing their trades.

4.Share Pledge:

Pledging shares is a financial arrangement in which shares are used as collateral to secure a loan. This allows investors to access funds while maintaining ownership of their assets.

Pledge Charges: The charge for pledging shares is ₹15 plus GST per scrip, irrespective of the quantity.

Pledge

Client Code : 1S795 BO ID : 1201260000311251

Allowed Between 8:30 to 4 PM

<input type="checkbox"/>	Scrip Name	Enter Qty	ISIN	Price	Holdings	Collateral Qty	Pledge Under Process	Pledge Completed Today
<input type="checkbox"/>	YESBANK-EQ	0	INE528G01035	21.09	17	0	0	0

Pledge Your Holdings

Collateral margin for stocks

Once the CDSL confirms, You will receive margin on Next trading day by 9 Am

Cost of pledge request

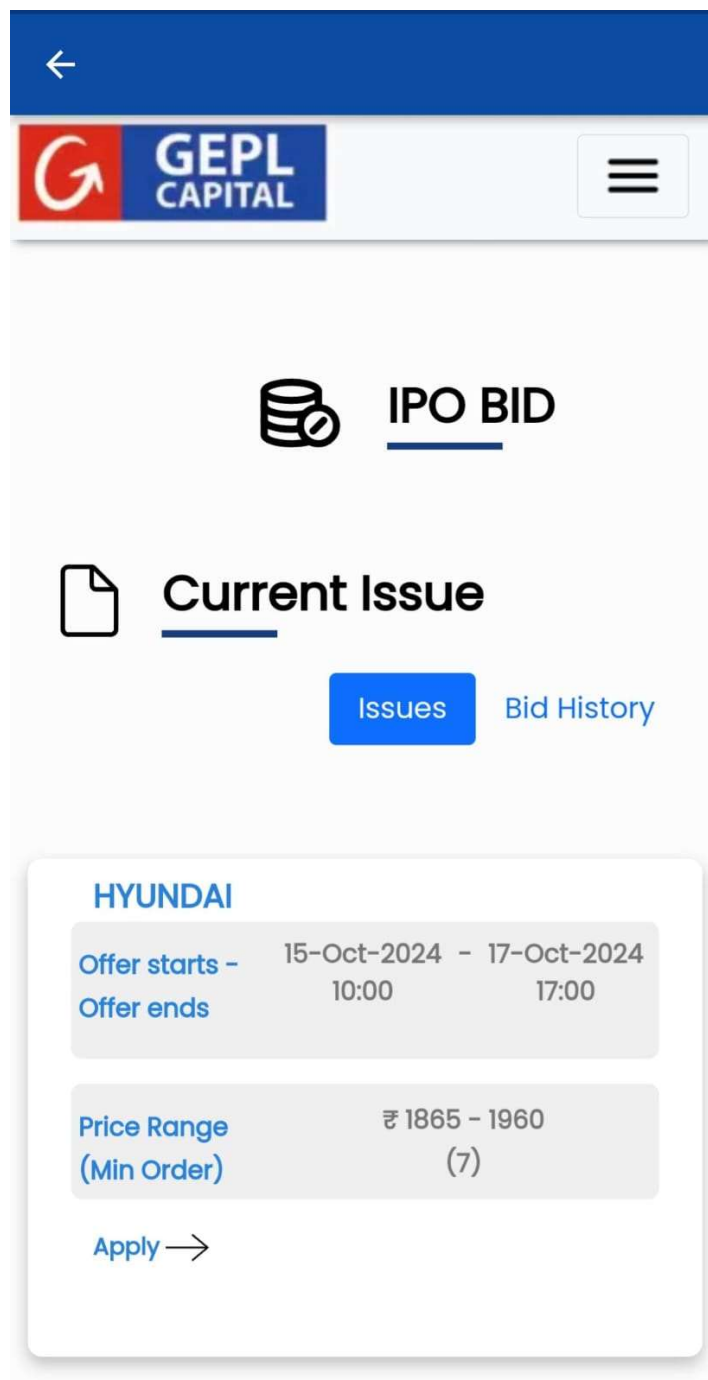

Rs 15 + GST per scrip irrespective of quantity.

Pledge is accepted only between 8.30 am to 4 pm

Request will be accepted only after the OTP authentication completed

5.Bids

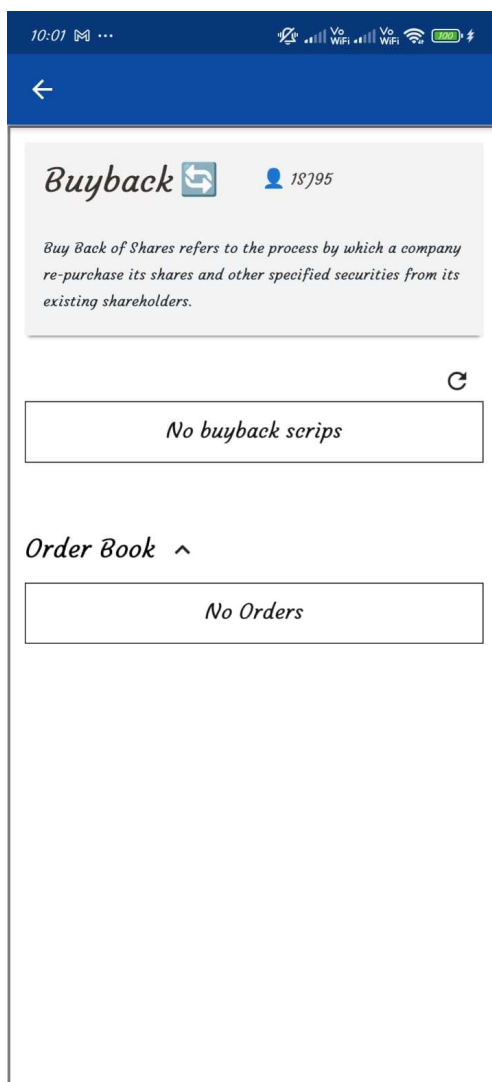

From this option, users can apply for the latest ongoing Initial Public Offerings (IPOs).

Buyback of Shares:

A **buyback** is when a company repurchases its own shares from the market. This reduces the number of shares in circulation, which can:

-  Increase **EPS** and **share value**
-  Reward shareholders (alternative to dividends)
-  Show confidence in the company's future
-  Use excess cash efficiently

6. News

From this feature, users can access the latest news for various scrips, keeping them informed about important market developments.

7. Wealth:

Check your Mutual Fund portfolio and invest in new schemes from here.

8.Margin calculator

A margin calculator helps users determine how much money they can borrow from a stockbroker to purchase financial instruments such as stocks, futures, options, and more. This tool is essential for managing investment strategies and understanding borrowing capacity.

The screenshot shows the GEPL Capital mobile application interface. At the top, there is a blue header with a back arrow and a link to "Open Demat Account". Below the header is the GEPL Capital logo and a hamburger menu icon. The main content area is titled "Margin Calculator". It contains several input fields: "Select Exchange" with a dropdown arrow, "Select Symbol" with a dropdown arrow, a text input field, and a text input field with the placeholder "please provide the price". Below these fields are two radio buttons labeled "Buy" (selected) and "Sell". At the bottom of the form are two buttons: a red "Add" button and a blue "Reset" button. A green WhatsApp chat bubble icon is visible in the bottom right corner. At the very bottom, there is a dark grey bar with the text "Combined margin requirements" and a small link to "Privacy - Terms".

9. What's New:

In this segment, the newly added features are displayed, providing users with insights into the latest updates and enhancements.

Following changes have been implemented in our New Mobile App update

- 1. Profile Modification: Now, you can update your personal details directly—address, mobile number, bank details, and more—right from your profile!*
- 2. Corporate Actions at a Glance: Spot the new symbol next to script names in Market Watch. Just tap and hold to view the latest corporate actions for any script.*

10. Introducing Ask Us – Your AI-Powered Assistant in GEPL Pro Markets

Ask Us is an AI-based chatbot designed to assist you 24/7. It helps you with:

-  **All details related to GEPL services**
-  **Access to research reports, trading recommendations, and market updates**
-  **Instant answers to your queries on account, trading, research, and more**

Get real-time support, discover investment ideas, and explore GEPL's full range of offerings — all through a smart, intuitive chat experience.

 Just tap **Ask Us** in the GEPL Pro Markets app and start chatting!

Replies instantly and is available 24/7

Thank you
